

# **The Essential Virtual Carding Course – Support Guide**

**Bonus Module - Resources**

*After reading 45 pages of Virtual Carding Course packed with A to Z and step by step information, I would like to offer a BONUS Module with resources that i've gathered in my years in DarkNet.*

*Excepting the resources that i've offered during the modules, everything listed below should be tested and taken with a grain of salt. Some of them we're personally tested in recent months, some in recent years. Some changed "management" and from reliable resources they went into a more "gray" area.*

*Nothing listed here is deemed to be a scam website or a rippoff, but again, you should check them yourself. I hope they will fit help you along the way.*
